- All Freightliner Classic Models
- All Peterbilt 379/378/388/389 Models
- All International 9900 series
- Western Star 4900 Series 1989 and up
- Kenworth W-900 1982 to current

Premium Stainless Steel Chromed Bumpers

New Universal Blind Mount bumpers are manufactured using the highest-grade (type 304) non-magnetic stainless steel. These high quality bumpers are Nickel Chromed for exceptional protection against rust, corrosion and road debris. The two-piece design of the Texas Square bumpers consists of a 10 gauge Nickel Chromed 304 stainless steel shell supported by the 10 gauge mounting plate. The Patent Pending design of the mounting plate allows for easy installation on numerous makes and models of class 8 trucks.

FEATURES / ADVANTAGES:

1. The 10 gauge 94" long Texas Squared, Boxed End Universal bumpers are available in 20" or 22" configurations with the option of light holes pre cut into bumper (lights not included)
2. Nickel chromed 304 10 gauge stainless steel provides dual protection against rust, corrosion and road debris
3. Patent Pending backing plate's universal design allows for easy installation on five different brands of trucks, allowing for reduced inventories
4. The bumper shell can be purchased separately in the event of damage to the bumper
5. Bumpers can move from truck to truck with the original owner
6. 5 year warranty against rust or corrosion on Nickel Chromed bumper
7. The high quality appearance of these Texas Square Bumpers made them a show stopping hit at Mid America Pride and Polish
8. Bottom lip of bumper has been pre-drilled in numerous locations prior to chroming to accommodate the installation of additional accessories (drilling of the bumper will void warranty)
9. Bumper shell can be easily removed in minutes to expose tow hooks

WARRANTY & RETURN POLICY

Universal Blind Mount Bumpers come with a 5 year warranty from the date of sale for material and workmanship for bumper shell.
6 month warranty against material and workmanship on mounting plate.
